SUMMARY

Motivated and detail-oriented Software Engineering student at African Leadership University with a growing foundation in Frontend Web Development. Experienced in building responsive web interfaces using HTML, CSS, and JavaScript, and actively learning React and UI/UX principles through courses and coding challenges. Passionate about using code to solve real-world problems and pursuing continuous growth through personal projects and fellowships. Currently seeking an internship to apply and expand these skills in a practical development environment.

EDUCATIONAL BACKGROUND

African Leadership University – Kigali, Rwanda

May 2024 – April 2027

BSc. in Software Engineering

Relevant Coursework: Web Development, APIs & Web Infrastructure, Data Structures & Algorithms, Database Management

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python
- **Frontend:** React, HTML, CSS
- **Backend:** Node.js, Express.js
- **Database:** SQLite, MySQL
- **Version Control:** Git, GitHub
- **Other:** RESTful APIs, Web Security (SSL, Firewalls), Debugging, Deployment

PROJECTS & EXPERIENCE

API-Weather-WebApp

March 2025

- Built a weather application using HTML, CSS, JavaScript, and WeatherAPI.com for real-time weather data.
- Integrated search by city, 7-day forecast, and dynamic weather icons & animations.
- Implemented error handling and deployed using a load-balanced web server setup.

GitHub: [GitHub repo URL](#)

GradeBuddy

January 2025 - Present

- Built a Python + SQL-powered grade tracker to help students monitor academic goals.
- Features include progress monitoring, GPA calculation, and assignment reminders.
- Currently expanding to a Flask web app.

GitHub: [GitHub repo URL](#)

Amazon Clone (Guided Project)

March 2025 - Present

- Building an Amazon-like e-commerce website following the “Full JavaScript Tutorial from Beginner to Pro” by SuperSimpleDev.
- Learning advanced JavaScript concepts, DOM manipulation, and API integration.
